Mr. Max J. Reynolds
Vice President, Operations
Great Salt Lake Minerals & Chemicals Corp.
P.O. Box 1190
Ogden, Utah 84402

Dear Mr. Reynolds:

Re: Approval of Revised Amount of Reclamation Surety, Great Salt Lake Minerals & Chemicals Corporation(GSLM), Little Mountain Plant, M/057/002, Weber County, Utah

On January 27, 1993, the Division and Board of Oil, Gas and Mining approved the revised Reclamation Contract and adjusted reclamation surety recently provided by GSLM. The surety was increased to reflect one year of escalation only. GSLM's surety is to be adjusted on an annual basis until 1994 as was agreed upon in 1989. The present surety amount of \$233,800 is considered current until the annual renewal date of August 31 (1993). The surety should be increased for escalation and renewed prior to the date of August 31, 1993. The surety is scheduled for a five year review in August 1994. At that time Board will most likely request GSLM post a surety for a five year period.

For your files, please find enclosed one copy each, of the fully executed reclamation contract and current amendment to the reclamation surety.

Thank you for your cooperation in this permitting action. If you have any questions in this regard please call me or Wayne Hedberg here at the Division.

Thank you for your cooperation in completing this permitting action.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
